Empty-nesters looking to downsize may find this the perfect home for their lifestyle. Not only does this one-story ranch keep cleaning simple, but it also has two extra rooms for guests. Use the flex room as a study or craft room until visitors come. Install a Murphy bed for visiting grandchildren. They'll be delighted by the novelty of this convenient feature!

With guests comes more laundry. Optional cabinets can be installed in the laundry so staying organized is simple. Two linen closets, two coat closets, and three walk-in closets also keep clutter down. So while they visit, you can socialize - not just organize.
